INDUSCO, LTD.

MANUFACTURING CHEMISTS

SAFETY DATA SHEET

SECTION 1: PRODUCT AND COMPANY IDENTIFICATION

Product Name: **SLIDE WAX 830**

Revision Date: February 14, 2105

Chemical Description: Blend of waxes and solvents

Manufacturer Information:
IndusCo, Ltd.
2319 Joe Brown Drive
Greensboro, NC 27405
Main Telephone No. 336-375-7555
CHEMTREC-For Emergencies Only 1-800-424-9300 (24 hours), International 1-703-527-3887

SECTION 2: HAZARDS IDENTIFICATION/EMERGENCY OVERVIEW

Classification of the Substance or Mixture: **FLAMMABLE LIQUIDS-Category 3**
SERIOUS EYE DAMAGE/EYE IRRITATION-Category 2A
SKIN CORROSION/IRRITATION-Category 3

Hazard Pictograms:

Signal Word: **Warning**

Hazard Statements: **Flammable liquid and vapour. Causes serious eye irritation. Causes mild skin irritation.**

Precautionary Statements

Prevention: **Wear protective gloves/clothing and eye/face protection. Do not breathe dusts or mists. Do not eat, drink, or smoke when using this product. Wash hands thoroughly after handling. Keep away from heat, sparks, or open flame. Take precautionary measures against static discharge. Use explosion-proof electrical, ventilating, and lighting equipment.**

Response: **Get medical attention if you do not feel well. IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. Immediately call a poison center or doctor. IF ON SKIN (or Hair): Take off immediately all contaminated clothing. Rinse skin with water or shower IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, get medical attention.**

Storage: **Store locked up. Store in a well-ventilated area. Keep cool.**

Disposal: **Dispose of contents and container in accordance with all local, regional, national and international regulations.**

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

SECTION 4: FIRST AID MEASURES

Eye Contact	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention immediately. Continue to flush eyes with plenty of water.
Inhalation:	Get medical attention immediately. Remove victim to fresh air and keep at rest in a position comfortable for breathing. In unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.
Skin Contact:	In case of contact, flush skin with plenty of water for at least 30 minutes. Get medical attention immediately if irritation develops or persists. Wash contaminated clothing thoroughly before reuse. Clean shoes thoroughly before reuse.
Ingestion:	Get medical attention immediately. Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. Do not induce vomiting unless instructed to do so by medical personnel. Never give anything by mouth to an unconscious person.

5. FIRE FIGHTING MEASURES

Flammability of the Product	Flammable liquid and vapor.
Extinguishing Media	Small Fire: Use DRY chemical powder Large Fire: Use water spray, fog, or foam. Do not use water jet as an extinguisher, as this will spread the fire.
Protective Equipment for Firefighters	Firefighters should wear full protective clothing including self contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

6. ACCIDENTAL RELEASE MEASURES

Small Spill or Leak	Dilute with water and mop up or absorb with an inert dry material and place in an appropriate waste disposal container. If necessary, use suitable protective equipment (Section 8). Finish cleaning by spreading water on the contaminated surface and dispose of according to local and regional authority requirements.
Large Spill or Leak	Absorb with an inert material and put the spilled material in an appropriate waste disposal container. Use suitable protective equipment (Section 8). Do not release into the environment.
Containment Methods	Stop the flow of material if this is without risk. Shut off all sources of ignition. Use spark-proof tools and explosion proof equipment. Prevent spilled material from entering sewage and drainage systems which lead to waterways. Contain and collect spillage with non-combustible, absorbent material, i.e. sand, earth, diatomaceous earth and place in a container for disposal according to local regulations. Contaminated absorbent material may pose the same hazard as the spilled product.

7. HANDLING AND STORAGE

Protective Measures:	Wear appropriate personal protective equipment. Do not get in eyes or on skin or clothing. Do not breathe vapor or mist. Wear appropriate respirator when ventilation is inadequate. Do not enter storage spaces unless adequately ventilated. Keep in the original container and keep tightly closed when not in use. Store and use away from heat, sparks, open flame, or any other
----------------------	---

source of ignition. Empty containers retain product residue and can be hazardous. Do not reuse container. Remove contaminated clothing and protective equipment before entering eating areas. Workers should wash hands and face before eating, drinking, or smoking.

Conditions for Safe Storage

Do not store below 0°C (32°F). Store in accordance with local regulations. Store in a segregated area away from heat, sparks, open flame, or other sources of ignition. Store in original container protected from direct sunlight in a dry, cool, and well ventilated area, away from incompatible materials and food and drink. Separate from acids and oxidizing materials. Keep container closed and tightly sealed until ready for use. Use appropriate containment to avoid environmental contamination. Empty containers retain product residue and can be hazardous. Do not reuse container.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Ingredient

Exposure Limits

Aliphatic Hydrocarbon

ACGIH TWA 100 ppm

Engineering Controls

Use only with adequate ventilation. Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. Use explosion-proof ventilation equipment.

Personal Protection

Eyes

Chemical splash goggles and/or face shield.

Skin

Permeation resistant gloves. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. Permeation resistant clothing and foot protection.

Respiratory

No personal respiratory protective equipment is normally required. If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable), an approved respirator must be worn.

General Hygiene Considerations

When using, do not eat, drink, or smoke. Do not get in eyes. Do not get this material in contact with skin. Wash hands and face before breaks and immediately after handling the product. Wash hands after handling and before eating. Keep away from food and drink. Handle in accordance with good industrial hygiene and safety practice.

9. PHYSICAL AND CHEMICAL PROPERTIES

Physical State

Paste

Color

Opaque white

Odor

Pine

PH

Not applicable

Evaporation Rate

Not available

Explosion Limits

Not available

Specific Gravity

0.83

Solubility

Insoluble in cold or hot water

Auto-ignition Temperature

Not available

Decomposition Temperature

Not available

10. CHEMICAL STABILITY AND REACTIVITY

Reactivity

No specific test data for this product

Chemical Stability

Material is stable under normal conditions.

Conditions to Avoid

Extremes of temperature and direct sunlight.

Incompatible Materials	Inorganic acids and bases. Avoid contact with oxidizing agents (for example, nitric acid, peroxides, and chromates.)
Hazardous Decomposition Products	Carbon monoxide. Organic compounds which may be toxic.
Hazardous Polymerization	Hazardous polymerization will not occur.

11. TOXICOLOGICAL INFORMATION

Information on likely routes of exposure	Dermal contact. Eye contact. Inhalation. Ingestion.
Acute Effects-Skin	Causes skin irritation.
Acute Effects-Eyes	Causes serious eye irritation.
Acute Effects-Inhalation	Vapor may be irritating to the respiratory system.
Acute Effects-Ingestion	Harmful if swallowed. May cause burns to mouth, throat, and stomach.

12. ECOLOGICAL INFORMATION

Degradability/OECD	Inherently biodegradable.
--------------------	---------------------------

13. DISPOSAL CONSIDERATIONS

Waste Information	The generation of waste should be avoided or minimized wherever possible. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains, and sewers. Waste must be disposed of in accordance with federal, state, and local environmental control regulations.
Disposal Instructions	Consult authorities before disposal. Incinerate the material under controlled conditions in an approved incinerator.
Contaminated Packaging	Empty containers should be taken to an approved waste handling site for recycling or disposal.

14. TRANSPORT INFORMATION

Dot Classification	UN Number	NA 1993
	Proper Shipping Name	Combustible liquid, n.o.s. (contains petroleum distillates)
	Hazard Class	Combustible liquid
	Packing Group	III

Note: Reclassed as a combustible liquid per 49 CFR 173.120(2). This reclassification does not apply to transportation by vessel or aircraft. Product is "Not Regulated" for ground transportation in containers of less than 119 gallons.

15. REGULATORY INFORMATION

U.S. Federal Regulations	<p>TSCA: All intentionally present components are listed on the TSCA inventory.</p> <p>US EPA CERCLA Hazardous substances: No products were found.</p> <p>SARA Title III Section 302 Extremely Hazardous Substances: No products were found.</p> <p>SARA Title III Section 313 Toxic Chemicals: No products were found.</p>
State Regulations	California Prop. 65: No products were found.

16. OTHER INFORMATION

Notice to the Reader: The information in this Safety Data Sheet should be provided to all who will use, handle, store, transport, or otherwise be exposed to this product. All information concerning this product and/or suggestions for handling and use contained herein are offered in good faith and are believed to be reliable as of the date of publication. However, no warranty is made as to the accuracy of and/or sufficiency of such information. The Buyer must determine for himself, by preliminary tests or otherwise, the suitability of this product for his purposes, including mixing with other products.
